## ABOUT US

We are in the business of building material for the last 35 years, during this period we have dealt with our clients who have undergone a drastic change about their choice, expectation and awareness about the latest brands and ornamental material being used in the modern construction of high quality houses. They also wish that they should get a complete package of material required for the completion of their houses from a single outlet. They also expect that they should get durable, qualitative material at a competitive price.

We had given a deep thought to bring about a system that should not only appeal to clients and also satisfied them as far as quality, price and durability is concerned. "THE HOME DESTINO" franchising considers being India's first interior as well as construction solution retail store opportunity available today. The Home Mart established itself as an Indian retail store with best quality and wide range of latest products from national and international top end brands for our valuable consumers, now opening its doors to prime franchise territories all over India.

The HOME DESTINO is the only interior and building material franchise retail store that is totally efficient and independent nowadays

The HOME DESTINO customers are home owners, Contractors/Builders who purchase products and complete their own projects and installations. The Company's associates assist these customers with specific product and installation questions both in its stores and through Online resources and other media designed to provide product and project knowledge. In Future the Home Destino's stores will offer a range of installation services targeted customers who select and purchase products and installation of those products from it in the store Online or in their homes through in-home consultations.
